## PROFESSIONAL SUMMARY

Recent Software Engineering graduate (2025) with comprehensive knowledge in web development technologies and programming fundamentals. Proficient in HTML, CSS, JavaScript, Python, and C++. Experienced in developing responsive web applications with strong problem-solving abilities and collaborative team skills. Seeking a Web Development internship or entry-level position to apply technical expertise, contribute to innovative projects, and advance professional growth in front-end development.

## EDUCATION

### Bachelor of Science in Software Engineering

University of Science and Technology Bannu, KPK, Pakistan | 2021 – 2025

- 3.88 CGPA
- Completed comprehensive coursework in Software Development Life Cycle (SDLC), Object-Oriented Programming, Data Structures, and Database Management
- Developed strong foundation in web technologies through practical projects and assignments
- Successfully completed final year project demonstrating full-stack web development capabilities

### FSc Pre-Engineering

Nisar Shaheed Degree College, Risalpur Cantt, KPK, Pakistan | 2018 – 2020

- Built strong analytical and mathematical foundation supporting software engineering principles • Developed logical thinking and problem-solving skills essential for programming

## TECHNICAL SKILLS

**Web Technologies:** HTML5, CSS3, JavaScript (ES6), Responsive Web Design

**Programming Languages:** Python, C++, C

**Core Concepts:** Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC), Data Structures & Algorithms, Algorithm Design & Analysis

**Database Management:** MySQL, Database Design, SQL Queries

**Development Tools:** Git/GitHub, VS Code, Version Control

**Soft Skills:** Problem-Solving, Team Collaboration, Effective Communication, Quick Learning, Attention to Detail

## PROJECTS

### Solar Panel Information Website | Final Year Project

2024 – 2025

- Developed a comprehensive informational website focused on solar panel systems, renewable energy solutions, and sustainability
- Designed and implemented fully responsive web pages using HTML5 and CSS3, ensuring optimal viewing experience across desktop, tablet, and mobile devices
- Created interactive user interface elements using JavaScript for enhanced user engagement and dynamic content display
- Implemented modern web design principles including clean layouts, intuitive navigation, and user-friendly interface
- Optimized website performance for faster loading times and improved user experience
- Conducted thorough testing to ensure cross-browser compatibility and responsive functionality

### Academic Projects & Coursework

- Completed multiple web development assignments demonstrating proficiency in HTML, CSS, and JavaScript
- Developed Python applications showcasing Object-Oriented Programming concepts and data structure implementations
- Created database-driven applications using MySQL for data management and retrieval
- Participated in collaborative coding projects emphasizing version control and team coordination

## CORE COMPETENCIES

- **Quick Learner:** Rapidly acquire new technologies and programming concepts with demonstrated ability to adapt to evolving development environments

- **Problem-Solving Mindset:** Strong analytical thinking with systematic approach to debugging and optimizing code solutions
- **Team Collaboration:** Proven ability to work effectively in team settings, contributing to group projects and supporting peer learning
- **Communication Skills:** Excellent verbal and written communication abilities, capable of explaining technical concepts clearly to diverse audiences
- **Attention to Detail:** Meticulous in code quality, documentation, and adherence to best practices and coding standards

## LANGUAGES

**English:** Professional Proficiency | **Urdu:** Native | **Pashto:** Native
